

LP Fuel,

Suitable for gasoline, diesel, fuel oil and petroleum.

Patented venturi type automatic shut-off with safety cut out valve.

Built in check valve.

Three speed flow trigger.

1" BSP female swivel inlet connection.

Materials:

Body, spout and guard - aluminium.

Internals – stainless steel, bronze and acetal resin.

Shroud – black plastic.

Swivel parts – hot stamped brass.

Steel parts galvanized and chromated.

Operation:

During use the automatic shut off valve is activated when fuel reaches the sensing port in the nozzle thus preventing overflow, additionally if the nozzle is pointed upwards or is dropped to the ground the shut off is activated.

Maximum Working Pressure: 6 Bar (85 psi).

Part No: NO-016-1A1.
